INDUSTRY COMMITMENT

Quality-Driven. Excellence-Delivered. Trusted Quantity Surveying and Cost Solutions for Oil, Gas & Mining.

QS Services is deeply committed to supporting the Northern Australia Oil, Gas & Mining industries through specialised, reliable, and high-quality consultancy services. With over three decades of experience, we understand the unique demands and complexities of these industries, from remote site conditions to regulatory compliance and cost management. Our team works closely with clients to deliver tailored solutions that prioritise safety and efficiency.

Points of Difference

Specialised Industry Knowledge – Over 35 years of experience delivering tailored construction cost and consultancy solutions for complex environments.

Responsive On-Site Support – Locally based teams available for direct site engagement, providing real-time measurement, reporting, and cost control.

Integrated National Resources – Backed by parent company Ralph & Beattie Bosworth Pty Ltd (RBB), enabling scalable support through a broader network of professionals across Australia.

CAPABILITIES

Driving Value in Oil, Gas & Mining Projects.

Accurate Cost Planning

QS Services delivers reliable and detailed cost estimates that are specifically tailored to the unique challenges of Oil, Gas & Mining projects. Our team understands the complexities of mining operations, including remote locations, specialised equipment, environmental considerations, and fluctuating market conditions.

Contract Administration

QS Services provides highly competent and experienced contract management to ensure all project activities remain compliant with relevant regulations, contractual obligations, and industry standards. We focus on identifying and mitigating risks early and protecting our clients' commercial interests throughout the project lifecycle.

Site Based Quantity Surveying

QS Services provides precise on-site measurement, detailed reporting, and proactive construction cost control to support the successful delivery of active projects. Our team works closely with site personnel to monitor progress, verify quantities, and track costs in real time.

SPECIALISED TEAM |

Expert Quantity and Cost Surveying for Critical Industries.

Directors

Our Directors bring extensive industry expertise and strategic vision, actively guiding the company's growth and success. Their hands on leadership drives our strong commitment to excellence, innovation, and building trusted, long-term partnerships with clients across diverse sectors.

Quantity Surveyors

Our team of highly qualified Quantity Surveyors combines deep technical knowledge with extensive practical experience to deliver precise quantity surveying and cost services. Their expertise ensures effective budget control, optimised resource allocation, and successful project outcomes aligned with client goals and industry standards.

Technical and Support Staff

QS Services' technical and support staff provide essential expertise and reliable assistance, ensuring smooth project delivery and exceptional client service at every stage. Their dedication and teamwork underpin our commitment to quality and efficiency.

INDUSTRY SHOWCASE

QS
SERVICES

Over a seven-year period, QS Services was engaged to conduct site inspections and assessments, and to prepare an annual report auditing and evaluating the rehabilitation costs required to restore the disturbed area to a stable landform and viable ecosystem following the decommissioning of the uranium mine and its associated activities.

ERA RANGER URANIUM MINE Jabiru NT

**Uranium Industry and Nuclear Section Resource
Division, Australian Federal Government**

Circa

\$200M

The AEW&C and Stage 5 project scope encompassed aircraft facility buildings, taxiways, services upgrades, and fuel farm augmentation. Engaged by the head contractor, QS Services diligently and successfully delivered cost plans, detailed estimates, value engineering, and comprehensive work package bills of quantities.
